Statement of Compliance

The Responsible Individual must prepare the statement of compliance.

CIW have published <u>guidance</u> on completing the quality of care review which provides advice on what could be contained within the statement of compliance.

Set out your statement of compliance in respect to the four well-being areas below.

The extent to which people feel their voices are heard, they have choice about their care and support, and opportunities are made available to them.

The residents are the heart of the service every minute of ever y day. We talk, laugh, sit with them. Celebrate with them, show care, empathy, compassion if upset or sad. Give them a hug if needed.

Take them out for walks just to see the sea and maintain exerci se, which can be daily or if a resident is seeking to go out. We used a risk-assessed approach, so our current cohort of reside nts means a member of staff can leave the building to take a re sident to the seafront and back without it being detrimental to the safety and well-being of other residents with one member of s taff (late shift only).

Most walks are done in the morning with the Manager or can be with Care staff as more staff around in the day.

Residents are asked what they'd like to wear, what they want fo r breakfast, alternatives are offered for mealtimes every meal ti me. We ask them likes and dislikes. They go to bed and get up when they want, have their hair done when they want. Members of staff maintained their hair during COVID and this has continued as that's what residents preferred despite asking a professional hairdresser to come in. They enjoy and do lots of different a ctivities/games, crafts/knitting – residents often request what ty pes of things they would like to do.

The extent to which people are happy and supported to maintain their ongoing health, development and overall wellbeing. For children, this will also include intellectual, social and behavioural development.

Please explain how you evidence the above:

We evidence this in our daily reports, staff and residents meetings. We involved them in the decor and upkeep of the home and garden.

We observe how they interact with us and each other, they have time to themselves if they choose when they want in their rooms. We encourage them to sit in lounge and chat or watch TV or offer to take them for a walk if they want to go out. Please explain how you evidence the above:

Yes residents are supported with this and policy in place as per Regulation 33.
