	Partnership Area	North Wales	
	Service Conditions	There are no conditions associated to this service	

Describe the arrangements in place during the last financial year for identifying, planning and meeting the training needs of staff employed by the service provider	The company has mapped the training criteria to the AWIF within our new system to ensure that all training needs are met, within th is we have also revised our company approach to how to maximis e the time staff have in training and obtain the maximum develop ment from this process. There is a clear overview of each site and this is reviewed on a regular basis to give clear ownership of this process to each Manager, we have also set an internal end of Q2 goal for all settings to have a 90% training
Describe the arrangements in place during the last financial year for the recruitment and retention of staff employed by the service provider	We as an organisation acknowledge the difficult climate of recruit ment within the sector and are looking at ways to not only support retention of staff but also ensure that staff are offered additional i ncentives, we have also reviewed our recruitment process and th e reduction of lead time from interview to staff member starting ro es. We have ensured that the Welsh living wage has been implen ented and will review this as we move ahead, there is also a focus on staff well being.

Service Profile

Picture Exchange Communication System (PECS)	No
Treatment and Education of Autistic and related Communication- handicapped CHildren (TEACCH)	No
Makaton	No
British Sign Language (BSL)	No
Other	No

Statement of Compliance

The Responsible Individual must prepare the statement of compliance.

CIW have published <u>guidance</u> on completing the quality of care review which provides advice on what could be contained within the statement of compliance.

Set out your statement of compliance in respect to the four well-being areas below.

The extent to which people feel their voices are heard, they have choice about their care and support, and opportunities are made available to them.	Each individual has a Care plan review on a three monthly basis s to ensure that all aspects of care provided as specific to their individual needs and preferences, where it is appropriate the in dividual circle of support are included within this process. Qualit y assurance touch points are completed three monthly with key quantifiable data to direct improvements or potential focus area s. Internal audits and the RI regulation 73 report are used to als o make direct contact with individuals providing additional feedb ack to the setting, these touch points are then included within a ction plans as required. We as an organisation are focused on i ndividuals remaining in their own homes/ current place of resid ence for as long as possible, this is however balanced in regar d to always offering the least restrictive option and setting whic h meets the individual needs best.

The extent to which people are happy and supported to maintain their ongoing health, development and overall wellbeing. For children, this will also include intellectual, social and behavioural development.	Within our domiciliary settings we support individuals to tend to their own healthcare needs whenever this is possible, this inclu des offering support as required including making appointment s and communication with relevant professionals. Within our Ce ra Tech systems we use algorithms to identify key wording whic h is attributed to deterioration in health and well being, this is th en managed at a branch level to ensure that we act upon these concerns as they are noted. Communication and the recording of this at the setting level is vital to the long term health require ments of the individual, we have been able to reduce the preva ence of hospitalisation utilising this system. When requests are made for us to support attendance at appointments this is facilit ated when possible, we can then ensure that the individual is re sponsible for appointments but we can share the responsibility of this.
The extent to which people feel safe and protected from abuse and neglect.	As an organisation we place the safety of this we support as paramount of importance, we ensure that all staff have completed training and have the relevant knowledge and understanding or not only Safeguarding but also processes to follow when concerns have been noted or communicated. We have a robust policy and procedure in place which enables staff to have a clear process to follow in the event of this being required, we have also designed our own system to record incidents, accidents and Safeguardings/ Whistleblowing concerns. Our system allows us to clearly monitor all recorded events with prompts to ensure that imescales for aspects such as Regulation 60 notifications/ other r alerts are made in a timely manner. Within our touch points with individuals we utilise this to ensure that individuals first and for remost feel safe, we also ensure that individuals are aware of how to raise concerns and how to communicate effectively with the setting. We work in an open and transparent manner with all parties involved and are in the mindset to continuously improve our processes.

The following section requires you to answer questions about the staff and volunteers working at the service.

Number of posts and staff turnover

The total number of full time equivalent posts at the service (as at	23
31 March)	

The following section requires you to answer questions about each staff type including information about the number of filled and vacant posts, the training undertaken, the contractual arrangements in place and the qualifications of those staff.

The information entered should relate to the period during which the staff member has been working for the provider only.

Staff Type

Does your service structure include roles of this	Yes
type?	
	pecifically to this role type only. Unless otherwise osition as of the 31st March of the last financial year
